# Introduction

**T**he Liberia Financial Statistics (LFS) is a bi-monthly compilation and publication of the Central Bank of Liberia's (CBL) Research, Policy and Planning Department. It's a reference-data source of selected macroeconomic and financial sector statistics that provides relevant information on the trend of the Liberian economy for usage by individuals and institutions in both the public and private sectors.

As the first edition for 2015, it ranges from January, 2013, to February, 2015 and covers the four (4) main sectors of the Liberian economy, namely: monetary, real, fiscal and external. The graphs on the cover and inside pages of this edition illustrate the average monthly-trend of the Liberian dollar exchange rate vi-sa-vi the United States dollar (dating from March, 2014 to February, 2015).

The Management of the CBL remains grateful to all of its data providers (both in public and private sectors) for the cordial working relationship and timely data contributions that have translated to the success of this publication. Going forward, the Management envisages an enhanced working relationship with all of its data providers in furtherance to improving the quality of future publications.
