

## HOW IT WORKS: PRICING, MATURITY & RETURNS

**DISCOUNT PRICING: You pay LESS than face value today. At maturity, you receive the Full-face value. The difference is your profit.**

Minimum Investment Amount: L$10,000.00
Maximum Investment Amount: L$300,000,000.00

**1-month investment | Assuming you invest**

**Example: L$10,000 →**

**You Pay L$9,874.75→ (10,000.00 * 0.98748)**

**You Receive L$10,000 → at maturity**
**Profit L$125.25**

**3-month investment**

**Example: L$10,000 →**

**You Pay L$9,636.71 → (10,000.00 * 0.96367)**

**You Receive L$10,000 → at maturity**
**Profit: L$363.29**

NOTE: Profit may change for both maturity options based on changes in the Monetary Policy Rate (MPR). As of July 2026, MPR = 16%. Your rate is LOCKED IN once you buy.
