# Introduction

Published bi-monthly, the Liberia Financial Statistics (LFS) is one of the primary sources of macroeconomic statistics covering the four (4) sectors of the Liberian economy, namely, monetary, fiscal, external and real. The information compiled in the LFS is used by both the public and private sectors, especially academicians, policy makers, students, local and international organizations, the business community, etc.

This Edition represents the Second (2<sup>nd</sup>) publication of the LFS in 2017, and it contains statistical information ranging from January, 2015 to April, 2017. The graphs on the cover and inside pages illustrate Liberia trade balance (deficit) from May, 2016 to April, 2017.

The Management of the Central Bank of Liberia extends thanks and appreciation to all data providers who have been very instrumental in making this publication possible. It is the Bank's ardent hope that this level of cooperation continues as we all strive in making the Liberian society and economy better.

The Harmonized Consumer Price Index (HCPI) is an amalgamation of the Classification of Individual Consumption by Purpose (COICOP), consisting of twelve functions (major groups) together with the Monrovia Consumer Price Index (MCPI) and its weights obtained from the 1964 limited expenditure survey. The Survey sample comprised wage-earner and clerical-employee households of two or more persons with monthly income not exceeding US\$250.
