Introduction

Published bi-monthly, the Liberia Financial Statistics (LFS) is one of the primary sources of statistical information published by the Central Bank of Liberia (CBL) on the Liberian economy. The usefulness of the LFS over the years is to the public and private sectors, specifically, academicians, policy makers, students and the business community.

This publication is the fifth edition of 2014, which contains data from January, 2012 to October, 2014, and covers the four sectors of the Liberian economy: monetary, real, fiscal and external. The graph on the cover and inside pages shows Liberia export receipts dating from January to October 2014.

The CBL is grateful to its data providers whose tireless efforts and commitment have made this publication possible. The Bank hopes that such cordial relationship continues to exist as we strive towards achieving improved and reliable data compilation and dissemination to our readers.
