Introduction

Liberia Financial Statistics (LFS)

First Edition
February 2019

The Liberia Financial Statistics (LFS) is a bi-monthly database publication by the Central Bank of Liberia intended to meet the research needs of students, academicians, the business community, policy makers and development partners. The publication is made six times annually with the first, second, third, fourth, fifth and sixth editions respectively appearing in February, April, June, August, October and December. Data frequency is monthly, and each publication covers a period of three years. Data are expressed in millions and thousands of Liberian dollars as indicated under the headings of each page.

The graph on the cover page represents End of Period exchange rates period averages from March 2018 to February 2019.

The Central Bank is highly grateful to its many data providers both in the public and private sectors whose cooperation in providing the required data has helped to continuously make this publication possible. The CBL assures all data providers that data provided will only be used for statistical purpose to inform research and policy decisions.

The Harmonized Consumer Price Index (HCPI) is an amalgamation of the Classification of Individual Consumption by Purpose (COICOP), consisting of twelve functions (major groups) together with the Monrovia Consumer Price Index (MCPI) and its weights obtained from the 1964 limited expenditure survey.

The Survey sample comprised wage-earner and clerical-employee households of two or more persons with monthly income not exceeding US\$250.
