# Introduction

Published bi-monthly, the Liberia Financial Statistics (LFS) is one of the primary sources of macroeconomic statistics covering the four (4) sectors of the Liberian economy, namely, monetary, fiscal, external and real. The information compiled in the LFS is used by both the public and private sectors, especially academicians, policy makers, students, local and international organizations, the business community, etc.

This Edition represents the Fifth (5<sup>th</sup>) publication of the LFS in 2015, and it contains statistical information ranging from January, 2013 to October, 2015. The graphs on the cover and inside pages illustrate Liberia's inflation rate from November, 2014 to October 2015.

The Management of the Central Bank of Liberia extends thanks and appreciation to all data providers who have been very instrumental in making this publication possible. It is the Bank's ardent hope that this level of cooperation continues as we all strive in making the Liberian society and economy better.
