Introduction

Liberia Financial Statistics (LFS)

Sixth Edition

December 2023

The Liberia Financial Statistics (LFS) is a bi-monthly database publication by the Central Bank of Liberia (CBL). It is mainly intended to meet the research needs of the academia, the business community, policy makers and development partners. The publication is made six times a year with the first, second, third, fourth, fifth, and sixth editions appearing in February, April, June, August, October, and December, respectively. The data frequency is monthly and are expressed in thousands or millions of Liberian or United States dollars with each publication covering the period of three years.

The graph on the cover page represents the commodity composition of exports values for the period January to December 2023.

The Central Bank of Liberia remains grateful to its many data providers, both in the public and private sectors, whose cooperation in providing the required data has helped to continuously make this publication successful. The CBL assures all data providers that data provided will only be used for statistical purpose to inform research and policy decisions.

The Harmonized Consumer Price Index (HCPI) is an amalgamation of the Classification of Individual Consumption by Purpose (COICOP), consisting of twelve functions (major groups) together with the Monrovia Consumer Price Index (MCPI) and its weights obtained from the 1964 limited expenditure survey. The Survey sample comprised wage-earner and clerical-employee households of two or more persons with monthly income not exceeding US\$250.
