Introduction

Updated every 2 months, the Liberia Financial Statistics (LFS) is published for use by researchers, academicians, policy-makers, and the general public who are interested in macroeconomic data on the Liberian economy. The LFS, along with other Central Bank of Liberia's (CBL) publications, has received numerous acclaims for the quality of data reported.

This is the sixth (6) and final edition of the LFS for 2014. It covers statistical information on the four (4) sectors of the Liberian economy, namely: monetary, real, fiscal, and external trade, spanning from January, 2012 to December, 2014. The cover page of this edition shows movements in Liberia's export earnings and import payments from January to December, 2014.

The Management of the CBL remains highly grateful to its many data providers for the continual excellent working relationship that has translated into the timely preparation of this document and other publications.

The Harmonized Consumer Price Index (HCPI) is an amalgamation of the Classification of Individual Consumption by Purpose (COICOP), consisting of twelve functions (major groups) together with the Monrovia Consumer Price Index (MCPI) and its weights obtained from the 1964 limited expenditure survey. The Survey sample comprised wage-earner and clerical-employee households of two or more persons with monthly income not exceeding US\$250.

The Harmonized Consumer Price Index (HCPI) is an amalgamation of the Classification of Individual Consumption by Purpose (COICOP), consisting of twelve functions (major groups) together the Monrovia Consumer Price Index (MCPI) and its weights, obtained from the 1964 limited expenditure survey. The Survey sample comprised wage-earner and clerical-employee households of two or more persons with monthly income not exceeding US\$250.
