Honourable Governor,

**DESIGN AND CONSTRUCTION OF AN ONLINE DATABASE MANAGEMENT SYSTEM FOR THE  
WEST AFRICAN MONETARY INSTITUTE (WAMI)**

The Director General of the West African Monetary Institute (WAMI) presents her compliments to the Honourable Governor.

The Institute's overarching mandate is to undertake preparatory activities towards the launching of a monetary union for the (WAMZ). Activities under its purview are, but not limited to; multilateral surveillance of the macroeconomic performance of Member States, deepening financial integration among Member States, developing national and zonal payment systems in Member States, designing the architecture and policy frameworks of the WAMZ monetary union, sensitization of stakeholders, collaboration with external partners, undertaking research studies that will aid the WAMZ regional integration process as well as publication of relevant materials in pursuit of the mandate of WAMI. The aforementioned activities are essentially data-driven. In addition to that, WAMI also remains fully committed to data-sharing and information dissemination in a more coordinated manner to Member States, other stakeholders, researchers and academicians worldwide.

The Institute saw the need to establish a credible and fully functional online statistics database to host its macroeconomic, financial and trade data, among others. The database is intended to serve as a portal for official statistics compiled by WAMI. The purpose of this consultancy is to design and develop a reliable online statistical database for WAMI that will be accessible to Member States and other stakeholders.

To this end, we would be grateful if the attached Expression of Interest (EOI) and Terms of Reference (TOR) on the Design and Construction of an Online Database for WAMI could be published on your web site for the invitation of bids.

Please accept, Honourable Governor, the assurance of my highest consideration.

Yours sincerely,

**Dr (Mrs) Ngozi E. Egbuna  
Director General**
