Introduction

In its effort to provide adequate, reliable and timely information, the CBL has continued to compile relevant economic and financial statistics. These data are contained in the Bank's bi-monthly Liberia Financial Statistics (LFS).

Since its initial publication in 2000, the document has continued to provide macroeconomic data covering the four major sectors of the economy. These necessary information are obtained from relevant stakeholders in both private and public sectors. This third edition for 2011 contains information spanning from January 2009 to June 2011. All provisional and estimated statistics in earlier publications have been revised to reflect the actual figures. The diagram on the cover page illustrates export proceeds from July 2010 to June 2011.

As usual the Bank extends gratitude to the various data providers and hope that such partnership will continue to enhance the country's statistical database.

The Harmonized Consumer Price Index (HCPI) is an amalgamation of the Classification of Individual Consumption by Purpose (COICOP), consisting of twelve functions (major groups) together with the Monrovia Consumer Price Index (MCPI) and its weights obtained from the 1964 limited expenditure survey. The Survey sample comprised wage-earner and clerical-employee households of two or more persons with monthly income not exceeding US\$250.
