# Introduction

## **Liberia Financial Statistics, LFS**

Fourth Edition

August, 2018

**T**he Liberia Financial Statistics (LFS) is a bimonthly publication by the Central Bank of Liberia intended to serve as database to meet the research needs of students, academicians, the business community, policy makers and other researchers. The publication is made six times annually with the first, second, third, fourth, fifth and sixth editions respectively appearing in February, April, June, August, October and December. Data frequency is monthly and each publication covers a period of three years at most. Data are expressed in millions and thousands of Liberian dollars as indicated under the headings of each page, except for debt data which is expressed in millions of US dollars.

The graph on the cover page represents the inflation rates for one year (Sept, 2017 – Aug, 2018).

The Central Bank of Liberia is highly grateful to its many data providers both in the public and private sectors whose cooperation in providing the required data has helped to continuously make the publication possible. The Management of the CBL assures all data providers that data provided to CBL will only be used for statistical purpose to inform research and policy decisions.
