# Introduction

## **Liberia Financial Statistics (LFS)**

Sixth Edition  
December, 2018

**T**he Liberia Financial Statistics (LFS) is a bimonthly database publication by the Central Bank of Liberia intended to meet the research needs of policy makers, development partners, academicians, the business community and students. The publication is made six times annually with the first, second, third, fourth, fifth and sixth editions respectively appearing in February, April, June, August, October and December. Data frequency is monthly and each publication covers a period of three years at most. Data are expressed in millions and thousands of Liberian dollars as indicated under the headings of each page.

The graph on the cover page represents the commodity composition of imports for one year, January – December 2018.

The Central Bank is highly grateful to its many data providers both in the public and private sectors whose cooperation in providing the required data has helped to continuously make publication possible. The Management of the CBL assures all data providers that data provided will only be used for statistical purpose to inform research and policy decisions.
